SUMMARY

Proficient React Developer with expertise in front-end, specializing in building user-centric web applications. Skilled in integrating Firebase for authentication, real-time database management, and cloud storage. Adept at creating responsive, modern designs using Tailwind CSS, managing state effectively, and deploying scalable projects on platforms like Render. Known for optimizing performance, enhancing user experience, and solving complex issues efficiently.

EXPERIENCE

Front end developer , MentorShore, Lagos,ojo, Nigeria (Remote) Dec - Present

- Developed responsive and user-friendly web interfaces using React.js, JavaScript, HTML, and CSS (Tailwind).
- Collaborated with designers and back-end developers to implement UI components and optimize performance.
- Assisted in debugging, testing, and improving web applications for better user experience.
- Gained experience in API integration, UI/UX design, and agile development within a fast-paced startup environment.

It Technician, Pear SDC, benin Mar 2022 - Aug 2022

Assisted in troubleshooting hardware, software, and network issues to ensure smooth IT operations.

- Supported the development and maintenance of internal web applications, enhancing system functionality.
- Assisted in database management, including querying and updating records
- Provided technical support to team members, resolving IT-related concerns efficiently.
- Documented processes and created reports to improve knowledge sharing within the IT team.
- Collaborated with cross-functional teams to integrate new tools and technologies.

EDUCATION

Benson Idahosa University, Benin City, Nigeria, Benin City, Nigeria - Bachelor of Science, Computer Science Sep 2019 - Sep 2023

Studied core principles of computer science, software development, algorithms, and data structures. Gained hands-on experience in web development, database management, and system design. Developed problem-solving skills through coding projects, software engineering practices, and real-world applications. Familiar with programming languages like JavaScript and Python, as well as tools for front-end and back-end development.

PROJECTS

Todoly - To-Do App

- Developed a task management app with user authentication and email verification using Firebase.
- Designed an intuitive UI with task categorization, progress tracking, and deadline reminders.

Lawyer Portfolio

- Built a professional portfolio website for a lawyer, featuring case studies and a contact form.
- Implemented responsive design and optimized SEO for better visibility.

Crypto Exchange Dashboard

- Created an interactive platform for viewing cryptocurrency rates using Fetch API.
- Implemented a responsive design with dark mode toggle and placeholder icons.

BlogSpot

- Developed a dynamic blog site using Next.js and Sanity CMS, featuring TypeScript, React Query, Redux, and Tailwind CSS for efficient content management, state handling, and responsive design. Integrated Leaflet.js for interactive maps.

SKILLS

- FrontEndDevelopment** : React.js, HTML5, CSS3, JavaScript (ES6+), Tailwind CSS, Material-UI (MUI), Responsive Design, Web Development, Next.js, TypeScript, redux state mangment
- BackEndIntegration** : Node.js, Express.js, Firebase (Realtime Database, Storage, Authentication)
- ToolsAndTechnologies** : Render, Git, Fetch API, Cloudinary
- DatabaseManagement** : Firebase Realtime Database, Firestore
- UserExperience** : BrowserRouter, API Integration, State Management
- CMS** : sanity
- Interests** : Gaming , working out
